# MILTON, CENTRAL TO YOUR SUCCESS

*Milton delivers infrastructure and business services;  
transportation and logistics corridors.*

# THE FASTEST GROWING AND MOST PREFERRED AREA IN THE GTA WEST

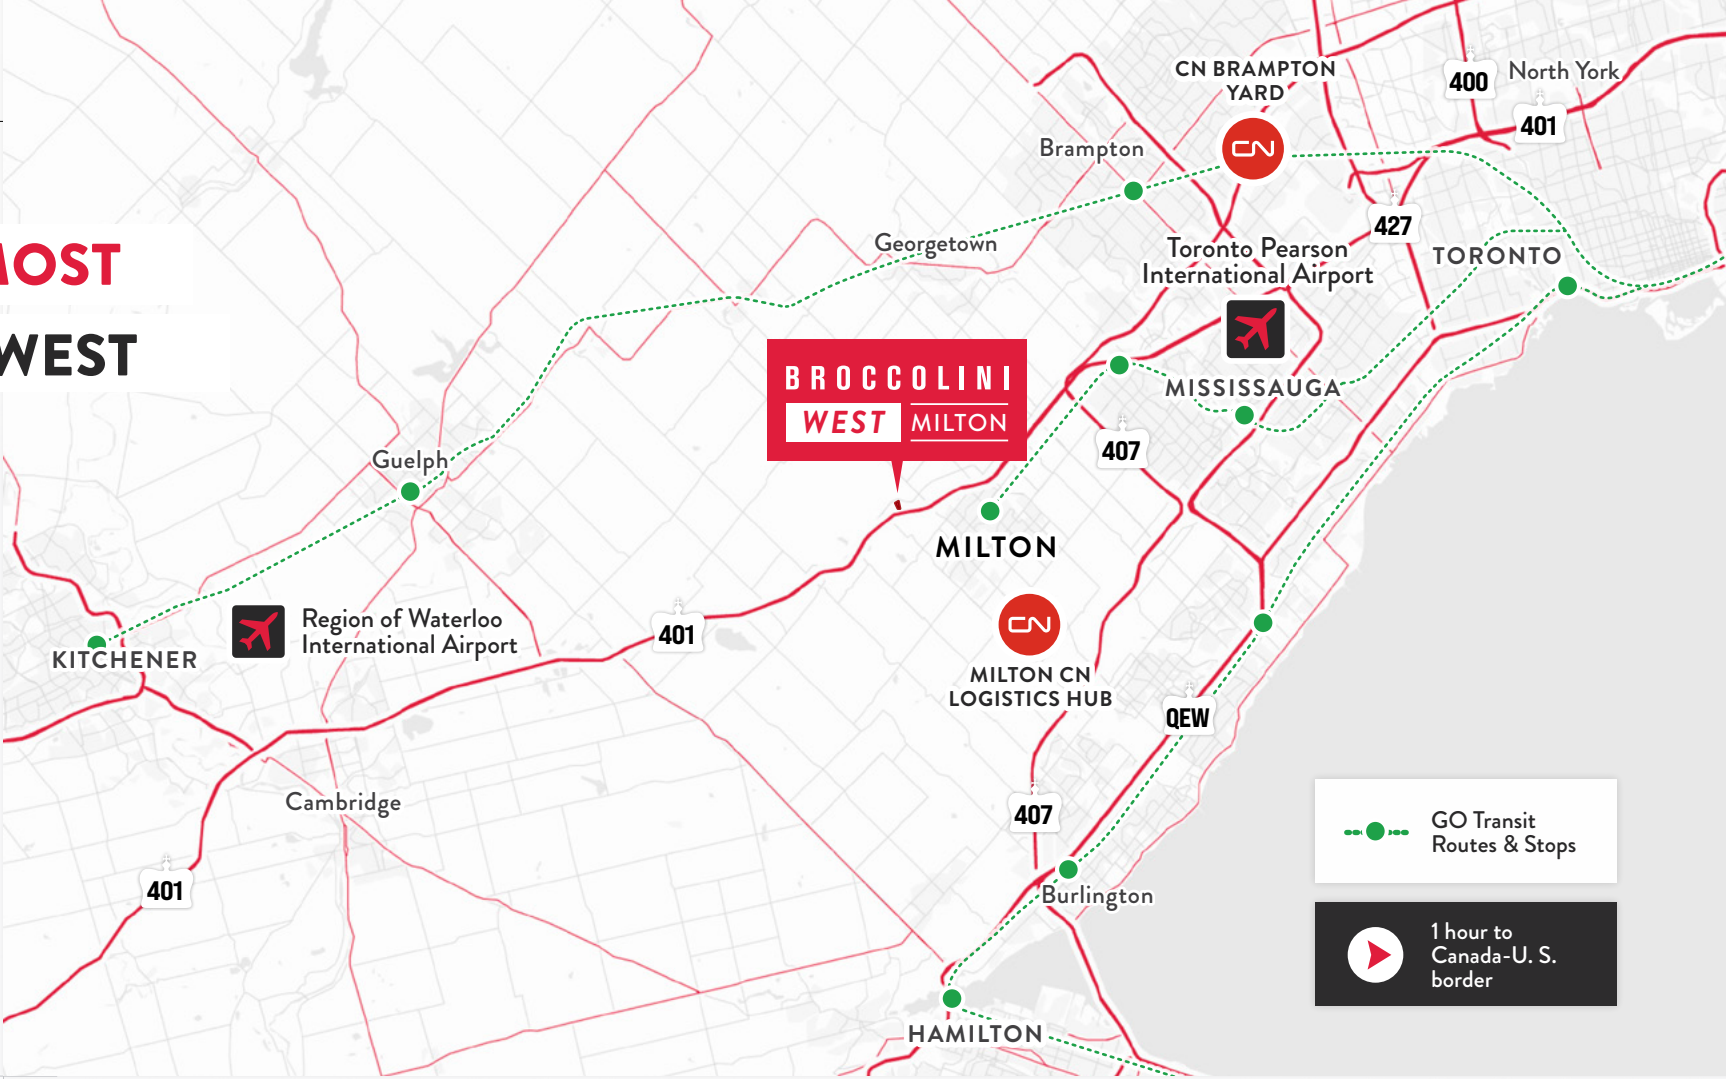

## ABOUT MILTON

Milton has become the fastest growing and most preferred area in the GTA West and has been a key area of focus due to strong leasing momentum, user demand, and lower development charges versus competitive areas.

The Milton market is driven by the substantial investment made by institutional Owners and Developers which have transformed the area into the dominant distribution and logistics market in the GTA. Various new uses have been following the trail of modern construction and residential growth and the demand for various types of product with various utility continues to be robust.

The Milton submarket is recognized for being placed directly on the country’s most significant transportation and logistics corridor, Highway 401. Highway 401 is the driver of Milton, and the lifeline of the distribution of goods from Milton to every major market in Canada and the USA. Milton has direct access to Highway 401, the existing CP Intermodal, and the planned CN Milton Logistics Hub, making Milton a compelling location for heavy freight, container, and logistics users. Milton is home to many major economic sectors including some of the largest international retailers, consumer products companies, and major manufacturers. The area benefits from its proximity to The Toronto Pearson and Hamilton Airports, two US border crossings, and the ability to service over 7,000,000 people within a 1-hour drive-time.

Milton is only 1 hour from the Canada-U.S. border, 30 minutes from Waterloo, 30 minutes from Toronto Pearson International Airport, and 40 minutes from Toronto’s downtown core.

An aerial photograph of an industrial facility, possibly a warehouse or manufacturing plant, with a red overlay and a grid of white plus signs. The image shows several large, rectangular buildings and a parking lot with a few vehicles. The red overlay is semi-transparent, and the white plus signs are arranged in a regular grid pattern across the entire image.

# MILTON, A PLACE OF POSSIBILITIES

*Milton supported 2.6 million square feet in expansion of and new Industrial,  
Commercial and Institutional (ICI) development in 2020*

# MILTON INFRASTRUCTURE IMPROVEMENTS

## CN MILTON LOGISTICS HUB PROJECT

On January 21, 2021, the Minister of Environment and Climate Change, Jonathan Wilkinson established the legally binding conditions that approved CN’s Milton Logistics Hub. The Federal approval on the \$250 million intermodal project subjects the proposed facility to 325 conditions designed to govern air quality, ground water and wildlife. Among many other stipulations, CN will need to limit the number of trucks entering the site to 800 per day.

This facility is a much-needed addition to the Canadian supply chain that will help meet the growing demand for goods in the Greater Toronto and Hamilton area. The new intermodal facility will be built on company-owned land at Tremaine and Britannia Road and be used mainly to transfer shipping containers between trucks and trains. Several pieces of support infrastructure are also included, such as a truck entrance and queuing area; a realignment and extension of the railway’s mainline; and a stormwater management system.

## MAJOR ROAD IMPROVEMENTS

The Town of Milton is investing over \$29.6 million in roads and bridges in 2021, building a complete community. This investment in the community helps Milton put the right infrastructure in place to meet community needs and make Milton a Place of Possibility.

- + New Tremaine Interchange
- + Six (6) Lane Expansion on Highway 401
- + James Snow Parkway Extension

Milton is at a key point in its evolution. With significant planned growth in the past decade, the municipality must deliver and maintain more infrastructure and hard services to the community. Town-led construction is essential municipal work to ensure Milton’s infrastructure remains safe, in state of good repair and able to meet the community’s needs now and in the future.
